SCHOOL OF MEDICINE

# COMMENCEMENT

Saturday, May 16, 2026  
Sunday, May 17, 2026

Infosys Theater at MSG  
New York, NY

## DOCTOR OF MEDICINE MISSION

St. George's University School of Medicine provides a diverse, multicultural, and international environment that empowers students to learn the medical knowledge, clinical skills, and professional behaviors to participate in healthcare delivery to people across the world

We congratulate each and every one of today's graduates; you will do us proud as ambassadors of St. George's University. We wish each of you success and fulfillment as you care for patients during your professional journey.

St. George's University Administration, Deans, Faculty, and Staff

"But nothing is more estimable than a physician who, having studied nature from his youth, knows the properties of the human body, the diseases which assail it, the remedies which will benefit it, exercises his art with caution, and pays equal attention to the rich and the poor."

Voltaire

## MESSAGE FROM THE DEAN

Marios Loukas, MD, PhD

President, St. George's University

Dean, St. George's University School of Medicine

Dear Graduates, Faculty, Family, and Friends,

It is an honor and a privilege to stand before you today on behalf of the faculty, staff and administration of St. George's University School of Medicine to celebrate this momentous occasion—

the graduation of the Class of 2026. Today, we recognize your hard work, your dedication, and your unwavering spirit.

Graduates, you have navigated a demanding journey filled with late nights, early mornings, and countless hours of study and clinical practice. You've shown resilience in the face of challenges and compassion for those in need. You've become not just healers, but front runners ready to step into a world that needs your skill, your empathy, and your commitment to making a difference.

Your time here has prepared you for the complex, ever-changing landscape of medicine. You've learned that being a doctor isn't just about the science; it's about listening, understanding, and showing kindness. It's about seeing the humanity in each patient and being there in their moments of greatest vulnerability.

However, one of the greatest challenges we face is the systemic racism that undermines the very core of our profession. Racism has no place in medicine, and we have a moral obligation to address it head-on. We must commit ourselves to being agents of change, advocates for justice, and champions of antiracism.

To the faculty and staff, thank you for your mentorship, your guidance, and your dedication. You've imparted not just knowledge, but the empathy and values that will guide these new doctors throughout their careers. Your commitment to excellence has been the foundation upon which their futures are built.

To the families and friends, today is your day too. Your support has been the bedrock upon which these graduates have built their dreams. Your belief in them has fueled their journey, and today, we celebrate your contribution to their success.

Graduates, as you step into the next chapter of your lives, remember that the road ahead will have its own set of challenges. The world of medicine is constantly evolving, and you must continue to learn, adapt, and grow. Be curious. Be courageous. Lead with integrity and compassion. Embrace the power of knowledge, and never forget the importance of empathy.

You are the ones we have been waiting for. You are the next generation of healers ready to make your mark on the world. The responsibility you carry is profound, but so is your capacity to bring about change. And always, always hold on to the belief that you can make a difference.

Congratulations, Class of 2026. We are incredibly proud of you. Your journey is just beginning, and we cannot wait to see the extraordinary impact you will have on the world.

# DAIS PARTY

## ADMINISTRATION AND SCHOOL OF MEDICINE FACULTY

**Charles R. Modica, JD**  
Chancellor

**Marios Loukas, MD, PhD**  
President and Dean, School of Medicine

**Andy Long, FEng**  
Vice Chancellor, Northumbria University

**Mark T. Clunes, PhD**  
Provost and Senior Associate Dean of  
Basic Sciences

**Arlette Herry, PhD**  
Interim Dean of the School of Arts  
and Sciences and Vice President for  
Multicultural Affairs

Closing Remarks.....Dr. Marios Loukas, President and Dean  
School of Medicine

Benediction.....Monsignor Brian McNamara

Recessional..... Subtle Cheetah Brass Quintet

*For your safety and the consideration of others,  
we ask that you remain seated throughout the ceremony.*

## MESSAGE FROM THE ALUMNI ASSOCIATION

Matthew Melamed, MD '14, MPH '09

President, School of Medicine Alumni Association

The SGU School of Medicine Alumni Association (SOMAA) and the Office of Alumni Affairs extend our heartfelt congratulations to all new graduates, and we welcome you to your Alumni Association!

On this day of celebration, think back to when you began your medical education. I had some of the same questions as you probably did: How will I survive living in another country? Will I be able to handle the course load? Will I pass my standardized tests? Will I finish and get my degree? Your concerns

went one step further as you had to navigate medical school during the pandemic. But you dealt with all of those challenges as you pursued becoming a physician, and that has led you here today.

Now, as you embark on the next step of your career in medicine comes a new set of questions: Will I get into a residency program? Most of you have answered this question, but you may still be wondering if you will be able to survive the long hours, the grueling schedule, and the sleepless nights that comes with residency training. Will you finish your residency? Will you truly be able to help people in their time of need?

The good news is you are well-prepared because of your experience at SGU. In addition, you will have a great support system with a network of over 25K alumni to lean on. There will always be someone you can turn to for help, to answer your questions, and to negate your doubts.

As you continue in your career, you'll hopefully become involved in many interests, such as your specialty society, teaching, administration, etc. Our advice to you is that whatever you decide to do—have passion for it.

I encourage you to take an active part in our Alumni Association. We have several ways for you to get involved:

- Help us to raise the visibility of SGU by providing support to prospective students who can be encouraged by your story, and work with students and graduates as they seek to secure clerkships, internships, and residencies.
- Join us at our yearly CME conference in Grenada held each March.
- Donate your time and skills in Grenada, making a significant difference to our host country and the people who live there. We also plan to extend our “Medical Mission” project in countries around the world.
- Join us at one of our regional “get-togethers” for alumni.

As you continue on your paths as healthcare professionals, remember how you got to where you are. Think about “giving back” at some point to SGU—and the people of Grenada by being a part of the Alumni Association. We can tell you firsthand you will not regret it. Congratulations again and we look forward to meeting you soon.

## MESSAGE FROM ALUMNI AFFAIRS

Colin Dowe

Associate Vice President of Alumni Affairs

C.V. Rao, PhD

Dean, Alumni Affairs

It is a pleasure to congratulate the graduating class of 2026 and welcome you as our newest inductees into the SGU School of Medicine Alumni Association (SOMAA). You've worked hard and persevered, and for this, you should be proud. You are now members of a phenomenal network of physicians. Continue to represent SGU, your alma mater, with pride, as you are now part of a remarkable heritage of physician success (#SGUProud).

As you transition from student to alumnus physician, your new journey will include residencies, walking the halls and wards of your hospitals and clinics, doing research, and attending to your patients. Know that you are not alone; you are now part of a vast alumni network, and connected you are stronger.

Your professional journey continues as a physician, and you will encounter your fellow SGU alumni along the way. Some will be colleagues you support and inspire, and others will be mentors and leaders who inspire you. Be proud of your SGU heritage, and identify with your network. You all started on the tiny island of Grenada to now physicians impacting lives everywhere. You did it. The bonds you made are forever. Only you and your SGU colleagues understand what it takes to be an SGU Alumnus. Wear this with pride.

Additionally, the class of 2026 inductees, this illustrious alumni network of physicians has grown. You should be proud of your achievements. You are part of a great alumni network. Together you can and will do great things, and we are proud of you.

As your new professional journey begins, know that your Alumni Affairs team and SOMAA are here to support you. Please stay connected.

Once again congratulations! Today is your day, and we celebrate you.

## DISTINGUISHED SERVICE AWARD

Dolland Noel, BSc, MD, FACP, Pg. Dip  
Professor

Dr. Dolland Noel is an Internal Medicine Consultant, medical educator, and healthcare leader with almost three decades of service to Grenada and the Caribbean. He earned a Bachelor of Science degree in Chemistry and Biology (double major) from the University of the West Indies Cave Hill Campus, Barbados, and subsequently did postgraduate research in Chemistry at the same institution. He earned his Doctor of Medicine from St. George's University and completed postgraduate training in Internal Medicine at Mount Sinai School of Medicine

(Jamaica) Program at Queens Hospital Center. He was also Chief Medical Resident at the same institution. He later obtained a Postgraduate Diploma in Endocrinology, from the Queen Mary College, University of London, UK. He is currently Board certified in Internal Medicine by the American Board of Internal Medicine.

As an Internal Medicine consultant, he headed the Department of Medicine at the St. Georges General Hospital, Grenada, from 2005 -2024 and was also the Head of the Antimicrobial Resistance Committee and the resource Consultant for the Infection Prevention and Control Team. During the Pandemic he headed the COVID-19 Clinical Management Team from the onset of COVID-19 in March 2020 – 2022 and was an advisor to the national committee. In 2011 he was appointed as the Associate Dean of Clinical Studies, Caribbean, St. Georges University and is responsible for developing and coordinating clinical programs for third- and fourth-year medical students and coordinating basic sciences programs at the St. George's General Hospital, Grenada. He also heads the Clinical Training Unit at the St. Georges General Hospital which runs an accredited Internship training program graduating 20 interns per year. Dr. Noel is also a professor within the School of Medicine, and co-chair of the department of clinical skills, St. Georges University, Grenada.

Dr. Noel is a member of several professional societies, including the American College of Physicians, the American Association of Clinical Endocrinologists and the Caribbean College of Family Practitioners (CCFP). Dr. Noel received several awards for academic and professional excellence and has co-authored many publications. He is also a member of the Grenada Medical Association and spearheads many local committees and initiatives including the establishment of an Adult Sickle Cell Clinic in Grenada. He has also done numerous presentations locally and regionally and continues to mentor many young physicians. Dr. Noel is actively involved in the coordination and provision of Continuing Medical Education (CME) programs for healthcare professionals in Grenada and support the health care system through the St. Georges University Physician Humanitarian Network.

## DISTINGUISHED SERVICE AWARD

Margaret A. Lambert  
Former Vice President and Dean of Enrollment Planning

Margaret Lambert is a strategic marketing and enrollment executive who joined St. George's University in its early years. Dean Lambert played a key role in developing the offices of Admissions, Registrars, and Marketing Communications.

Although her specific areas of expertise are in those areas, Dean Lambert was instrumental in the development of all the University's schools, programs, and administrative structures. Along with Vice Chancellor Keith Taylor and Dean

Calum Macpherson, Dean Lambert was one of the key people involved in the development of the Global Scholars Program with Northumbria University, and founding WINDREF, the non-profit research and education foundation associated with the University.

Dean Lambert is proud of the fact that under her leadership, the University's enrollment grew by 650%, and that her life's work has added almost 30,000 much-needed physicians, veterinarians, and public health professionals to the world.

## DISTINGUISHED SERVICE AWARD

Randy Becker, MD

St. George's University School of Medicine '00

Dr. Randy Becker is a distinguished radiologist and healthcare leader whose career has combined clinical excellence, medical education, and international service. He graduated from The Johns Hopkins University in 1994, with a Bachelor of Arts in Biology, and then earned his medical degree from St. George's University School of Medicine in 2000. After graduation, he completed his Medical Internship at St. Barnabas Medical Center, Diagnostic Radiology residency at The George Washington University School of Medicine and

Health Sciences, where he served as Chief Resident, and his Neuroradiology fellowship at The University of Maryland Medical Center, serving as Chief Fellow.

For the past two decades, Dr. Becker has been employed by Advanced Radiology in Baltimore, MD, where he currently serves as the Medical Director of the Crossroads Imaging Center in Ellicott City. He is the Director of Sales and Marketing for his practice, and has held staff appointments through the University of Maryland Medical System. Dr. Becker specializes in advanced neuroimaging, prostate cancer imaging, musculoskeletal imaging for elite athletes, and emergency radiology. He also founded and continues to direct one of the largest outpatient lung cancer screening programs in the mid-Atlantic region, offering this service to community based hospitals and imaging centers.

A dedicated mentor and advocate for medical education, Dr. Becker has long supported St. George's University as an admissions interviewer, lecturer, visiting professor, and anatomy lab instructor and member of the Physician Humanitarian Network, (PHuN). His commitment to healthcare in Grenada spans more than 20 years and includes leading major medical equipment donations, expanding ultrasound services, transitioning the Grenadian General hospital from film-screen radiography to digital imaging, implementing the island's first PACS digital radiology system, and spearheading the installation of Grenada's first comprehensive 3D mammography system with stereotactic biopsy capabilities in 2026—advancing breast cancer detection and care throughout the Caribbean.

## GRADUATION WITH DISTINCTION IN RESEARCH

St. George's University School of Medicine recognizes those students who conduct research during their medical studies that results in publication.

Students who achieve this accomplishment will receive a designation of "Distinction in Research." SGU School of Medicine will honor these students with a letter of commendation, which is placed in their permanent file.

## IOTA EPSILON ALPHA MEDICAL HONOR SOCIETY MEMBERS

The Iota Epsilon Alpha (IEA) Honor Medical Society of St. George's University School of Medicine was founded on the principles that include academic excellence, integrity, leadership, compassion, and philanthropy. Although IEA is an academic society, its precepts are grounded in promoting humanitarianism and moral integrity as well as academic excellence.

On April 14, 1992, medical student Nicholas J. Andrews, together with student colleagues Derek Bigler, Vinita Seru, and Patrick M. Morgan, convened to establish IEA at St. George's University. Since then, the student members of IEA have not only increased, but have contributed significantly to the local habitants of Grenada, through their efforts in charity fundraising for various homes for the elderly, disabled, and orphaned children, and in the continued health education of Grenadians. Currently, IEA has extended membership to medical students in SGU's satellite campus at Northumbria University in Newcastle, UK. Beginning in 2006, IEA students were recognized at their medical graduation ceremonies for the maintenance of their academic excellence and in enhancing the lives of Grenadians. In this manner, IEA continues to be an integral part of St. George's University's corporate citizenship of Grenada.

## 2026 GRADUATES INDUCTED INTO THE GOLD HUMANISM HONOR SOCIETY

The Arnold P. Gold Foundation established the Gold Humanism Honor Society (GHHS) in 2002. This effort was born of a desire to foster and acknowledge humanism during medical education. Since its inception, the GHHS has been established at more than 160 medical schools, and awarded thousands of students with honors. The St. George's University chapter was established in 2004. The student body was invited to identify potential nominees based on humanistic criteria, including dependability, exemplary patient care, devotion to the community and the underprivileged, trustworthiness, listening skills, and behavior representative of the ideal St. George's University medical student.

# ACADEMIC OATH

I do solemnly vow, to that which I value and hold most dear:

That I will honor the Profession of Medicine, be just and generous to its members, and help sustain them in their service to humanity;

That just as I have learned from those who preceded me, so will I instruct those who follow me in the science and the art of medicine;

That I will recognize the limits of my knowledge and pursue lifelong learning to better care for the sick and to prevent illness;

That I will seek the counsel of others when they are more expert so as to fulfill my obligation to those who are entrusted to my care;

That I will not withdraw from my patients in their time of need;

That I will lead my life and practice my art with integrity and honor, using my power wisely;

That whatsoever I shall see or hear of the lives of my patients that is not fitting to be spoken, I will keep in confidence;

That into whatever house I shall enter, it shall be for the good of the sick;

That I will maintain this sacred trust, holding myself far aloof from wrong, from corrupting, from the tempting of others to vice;

That above all else I will serve the highest interests of my patients through the practice of my science and my art;

That I will be an advocate for patients in need and strive for justice in the care of the sick.

I now turn to my calling, promising to preserve its finest traditions, with the reward of a long experience in the joy of healing.

I make this vow freely and upon my honor.
